This is UNEVALUATED Information

SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

There is an ammunition depot at Ruzomberok (N 49-05, E 19-19) which is directly under the Czech Army Headquarters. It is located four kilometers north of the Ruzomberok railroad station on the west slope of trigonometrical point 1203. It covers an area of 400 x 250 meters which is surrounded with two rows of barbed wire fence eight meters apart. Six eight-meter-high wooden watchtowers are placed between the two rows of barbed wire. Within the compound there is a single-story building for security and service personnel of the depot, eight brick-walled ammunition sheds circumsallated with earth, three ammunition bunkers sunk in the earth, and two underground ammunition storage rooms. The depot is said to be capable of holding 100 railroad carloads of ammunition. In fact, its contents are almost entirely artillery ammunition. However, airplane rockets are said to be stored in the ammunition sheds.
